

# You are invited ...

# to an Informational Open House

Vermont Electric Power Company, Burlington Electric Department and Green Mountain Power invite you to stop by anytime during the dates and times listed below to get answers to your questions regarding the preliminary plans for the East Avenue Loop transmission upgrade.

During the Open House you will be able to meet with the staff and experts on topics that include:

- Easement settlements, permitting overview and plans
- Vegetation management, danger trees, and initial clearing
- Aesthetic mitigation
- Electric and magnetic fields, also known as EMF
- Preliminary design review
- GIS (Graphical) modeling of areas of concern

**Tuesday, November 14, 2006**
